As all the years went by
With joy and sorrow
I found that you and I
Go different ways

It's up to you, up to me
Let's stay together
Our whole life is music
Every day is a song

Somehow we're going on
That's made in heaven
Our hearts are firm and strong
No matter what will be

It's up to you, up to me
Let's stay together
Our whole life is music
Every day is a song

Only love makes us smile
Love has got the key
We've got to go many of mile
I hope you always stand by me
