

Get Together

Open hearts, open eyes
Looking for the ocean in the desert

The east side and the west
Shoot the same guns

Taste the good, touch the light
Reach out for a new dimension

It's high time to get up
And get down to the plan

We're moving on - get together
We're moving on - get together

Open gates, open doors
Good to catch a sight of the kingdom

No murder, no lies
No doubts in our house

Living love, loving life
This old world starts to wonder

It's high time to get up
And get down to the plan
