

Main Attraction

There is one thing you should know - this is what I say
When you're feeling down - I'll rock your pain away, oh yeah
I'll turn you on, I'll burn you up - that's so sure to me
I'll make you cry, you'll learn to fly - and rock the night away

I'll take you under my wing till you're ready for the light
On top of my bill you're taking your first flight

You're my main attraction
I wanna make you stay
Come to me for action
You'll never get away

Ready for the big shot - waiting for the goal, oh yeah
I'm coming out to get you - to get you in my soul
I know your expectations, resurrection happens once again
Righteous vibrations let everybody win

You're my main attraction
I wanna make you stay
Come to me for action
You'll never get away

You're my main attraction
I wanna make you pray
Like in a chain reaction
You're burning night and day
