

Now And Forever

Words & Music: Rumpf/Kravetz/Müller/Thompson
Publisher: Antenna/Universal

I like to be in your company
I'm sure we have a good time
I feel the push in our chemistry
That's a good sign

We've always been a big family
So many years went by
Together we feel the mystery
That makes me smile, makes me smile

Now and forever
We shall be friends
Hold us together
With helping hands

I take advantage of your energy
I've got to sing the best
And in the center of our unity
I will rest

We've lost and found our compass point
Our love goes pirate-style
Once on the front side of a credit coin
We will smile, we will smile

Baby, for now and forever
We will be friends
We'll stay together
With helping hands

Baby, when love is so easy
Love is so sweet
Baby, please please me
With your heartbeat
