

One Step From The Dark

Premonition whispers - oh, sweetheart come to me
The demon is unshackled, the demon it is free
I only wanted pleasure - I never wanted pain
You hold me, you hurt me - it's happening once again

Wait a little longer, through the cornerstone of time
We'll all belong together - we'll sing along the rhyme
There's little place for preachers in this world that loves to sin
You say that you're a stranger - but I know who put you in

You take me for a saint that loves to dance and sing
And I wanna taste that apple - I'm in love with everything

One step from the dark
I'm on my way to losing - feeling this is wrong
One step from the dark
Who can keep me holy - who can keep myself strong

A supernatural mystery - a sacrificial lamb
A sovereign disappointment since this crazy world began
I'm brave, but I'm bashful, I'm beautiful but burned
But I want it right this minute - I'm waiting to return

Love me tender, baby - love me sweet and true
I'm waiting for release - the offering is you
You say you love me, baby, and I love you, too
I want to run for cover - I think I'm as scared as you
