

## UNIVERSE OF DREAMS

Words & Music: Inga Rumpf

People are trying to be on time to get everyday life done  
No confusion - no illusion. Now! Do it! You better run!  
Steady progress. Daily express. Do without delay!  
Won't be a fool to be someone's tool? Don't drool! Make way!

But what is real?  
The secret of our nature is so deep  
Don't you feel  
The pounding desire when you can't sleep - oh, oh!

Where are the visions you had as a child?  
What stopped you when your phantasy ran wild?  
Why do you wonder that you think in schemes?  
Who threw you out of the universe of dreams?

Lots of signs, but you can't define why people are feeling bad  
Much is fair but you can't declare when someone's going mad  
Re-recycling, e-biking, a-wrapping up a decade  
Wanna try to understand why we're gonna fade

What is real?  
The secret of our nature is so deep  
Don't you feel  
The pounding desire when you can't sleep - oh, babe!

Where will societies fall apart?  
When will a new renaissance start?  
What is the layout for a future plan?  
Who'll make the whole world great again?

Entire systems are blowing up  
What was below is now on the top  
Minds have changed, now it's real, so it seems,  
To step right into the universe of dreams

In these days of hope and fear  
At the turning point of welfare or career  
Games have changed, so it seems  
Won't you be my playmate in the universe of dreams
