

Brother

Words & Music: Inga Rumpf

Musikverlag: Progressive/ Warner/Chappell/Breeze

Brother, why did you come around to my house
Brother, religions never been to me far out

No matter what you say
I'm right and you are right, so go your way
I know how good your communication is
But you know, confidence is all I miss

Brother, I'm gonna shut my ears to people like you
Brother, there's lots of work for me to do

Now, you just waste your time
But there's a little corner in my mind
That keeps the message what I'm living for
Don't try to get me out of my backdoor

Brother, there were too many people like you
Brother, in every time they hit the message through

No matter what you say
Might all the people go on lying and praying
I know how lucrative your business is
But ask yourself how do you really live
