

CAN'T STOP MYSELF

Words & Music: Inga Rumpf / Niko Mueller

I begin to sing and you're watching me
Your eyes in my eyes are satin waves
With a long sustain we can get
Closer and closer to our grace

We've got the force and the good advice
To use the potion that breaks the ice

Don't trust tomorrow when you live in the western world
I think it's time to believe in today
Love throws an arrow hunting hearts full of need and faith
And when you're mine I'll give you to another

What makes a man hesitate
Just at the cycle of the age

Is it a wonder I can't stop myself
Is it any wonder I can't stop myself
Is it a wonder I can't stop myself
Watch the light in my eyes

Don't search so long, when it's love then it's good for you
Light up your light, let it be, my friend
Morning has come take a look through the heaven's door
The gate is wide, real saints are lovers

Not far away from paradise
I see the angels like satellites

Is it a wonder I can't stop myself
Is it a wonder I can't stop myself
Is it a wonder I can't stop myself
See the sky in my eyes
