City Jungle

Pretty girls in town
Are a special kind
Like the jungle flowers
They are sweet and wild

They hold up their heads
Towards the sunny side
All these long-legged women
Got nothing to hide

Reach out for the sky
Dirty blocks so high
Either live or die
Nobody hears your cry

City jungle
City jungle
City jungle
Life is easy in the comfort of the light

See that little girl
Playing in the street
She's got all the wisdom
Of the city heat

With a fear inside
She takes what she gets
A little love and sunshine
For the little kids

Ready for a fight
Trouble day and night
Either live or die
Nobody hears your cry
