Come On
Words & Music: Rumpf/Müller/Kravetz/Bohn
Musikverlag: Antenna/Universal

Come on, everybody
Right up, it's time to dance
Move on, out of body
Come on, experience

Get up, have a party
Join in, no violence
Stand up, everybody
Get up, make love, make sense

Come on
Now I need a notion
Tell me
What is future, what is past
Who is the first and who is the last
Tell me
What is sight and what is sound
Who makes the world go round and round
Tell me
What is below and what is above
How does it feel when you fall in love

Come on
Now I need a notion
Who's got beauty, who's got grace
What is time and what is space
Tell me
What is hot and what is cold
Who is young and who is old
I know
Trees don't move, I just need a clue
Why is the ocean so blue, so blue
