

Get Up

Words & Music: Inga Rumpf

Musikverlag: Capriccio/Warner/Chappell

Get up, children of presence
There's something to do
Everyone is needed
But it will be uncommon to you

Boys and girls, black, brown and white
Stand side by side
Martin Luther King had the right view
May his dream come true

Too long they tried to part us
From each other
So bad is the need
For our sisters and brothers

Brutal injustice, hate and fear
Mass misery around
Religious fools and masters of greed
Are trying to keep us down

Let our spirit fly
Across the nations
Be a color in the rainbow
That's spreading over the lands

No border shall part our generation
No violence shall separate our reaching hands
