

## The Sun Is Going Down

Words & Music: Inga Rumpf  
Copyright Control

The sun is going down  
Don't shine no more  
Since he's been gone  
Nothing's like before

It's getting cold  
It came to an end  
Before it had begun

What can I do  
But cry out my pain  
To ask for an answer  
Would be in vain

All things must pass  
The sunset glow  
Will come and go

The sun is going down  
The sun is going down  
The sun is going down  
And the world keeps going  
'Round and 'round

I'm looking out my window  
The stars are shining bright  
Happiness and bad luck  
Are standing side by side

Recalling all the good times  
Everything's said  
Is going through my head

He was my baby  
He gave me all he got  
We were together  
Joined in flesh and blood

And when I die  
I won't be alone  
Together we are going home
