Only one word and I understand
Only one smile - I begin to laugh
Only one touch and I feel grand
Only one kiss - I taste your love

When the night comes
Be by my side
Save my soul and hold me tight

I'm your baby
Your sweet thing
I need you - skin to skin

I'm your lady
Strong and smart
All for you - heart to heart

Only one tune and I begin to sing
Only one step - I'm walking on
Only one look, you make me swing
Only one move and I go to where I belong

When the night comes
Be by my side
Save my soul and hold me tight

I'm a woman and you're a man
When we're together
There's no winner, there's no loser in our plan

When the night comes
Light up my light
Save my soul and hold me tight

I'm your baby - your sweet thing - I need you - skin to skin
I'm your lady - strong and smart - all for you - heart to heart
